

The Community Oriented Police (COP) Unit of the West Valley City Police Department works with the citizens of West Valley City to address crime problems in their neighborhoods. The police department needs the participation of every citizen to be successful in reducing crime.

During the early part of the 20th century, officers were able to patrol their areas on foot, which allowed the citizens and the officers to get to know each other on a more personal level. This encouraged open communication between the police department and the citizens and therefore crime problems within the community were identified and quickly addressed.

The COP is committed to renewing this type of partnership with our citizens. The WVC PD encourages everyone to get to know the COP Detective in their area and develop a partnership with them. Together we can reduce crime in your neighborhood and continue to make West Valley City a safe place to live, work, and visit.
